KUBS: Standardizing Anesthesia Documentation

Design:

Market and Traction:

There is a clear clinical need for a standardizing tool for anesthesia documentation. The current market is fragmented, with many different systems in use. This tool will provide a single, easy-to-use platform for all anesthesia documentation, reducing the risk of error and improving patient safety. The tool is currently in development and will be available in the near future.

STATUS FLOW

Team: Samuel Brehm, A...

Problem

Bifurcation aneurysms are considered some of the most difficult to treat requiring long, complicated surgeries and are a significant cause of stroke morbidity and mortality.

Current Market

- Neurovascular Devices Market: \$2.7 Billion
- Bifurcation Aneurysm Endovascular Device Market: \$200 Million
- Wide Neck Bifurcation Unruptured Aneurysms Treated at 6.0% CAGR
